Good Afternoon & Welcome.
5th June 2019

Kent Test 2019

DfE number 886 2180

South Borough Primary School

SOUTH BOROUGH

Primary School

Test Date:

Thursday 12th September 2019

Test Registration:

Between 3rd June 2019 and 3rd July 2019 at:

www.kent.gov.uk/education-and-children/schools/school-places/kent-test#tab-1

Test Results:

17th October 2019

Test Results:

Your child will get three standardised scores, 1 for English, 1 for maths and 1 for reasoning.

Standardisation:

Standardisation is a statistical process which compares your child's performance with the average performance of other children in each test.

A slight adjustment is made to take into account each child's age so that the youngest are not at a disadvantage.

Test Appeals:

You cannot appeal against a Kent Test Result, only against a decision not to be awarded a grammar school place you have applied for.

School Place Appeals:

When results are sent out on 17th October 2019, they will simply confirm whether the child has passed the Kent tests or not. Further details will be supplied to the primary school which will be able to give parents the exact scores.

Parents will be able to ask their primary school for this information.

You cannot appeal until you are allocated a school in March 2020.

Appeals are generally heard throughout May & June.

Headteacher Assessment

Primary school Headteachers are provided with the results at the beginning of October. They have the right to apply for a 'Headteacher Assessment' (often called Headteacher Appeal) for children who have not reached the pass standard. This is carried out on a confidential basis without parents being informed.

A panel of Headteachers then considers a selection of work submitted by the primary school, the English Paper taken as part of the Kent Test and a report containing evidence from the Primary Headteacher.

If the child is successful in the Headteacher assessment, then the decision is regarded as a pass on an equal footing with those who gained automatic selection through test results. This means that the child is found selective and this decision is recognised at all Kent grammar schools.

C.A. Tests:

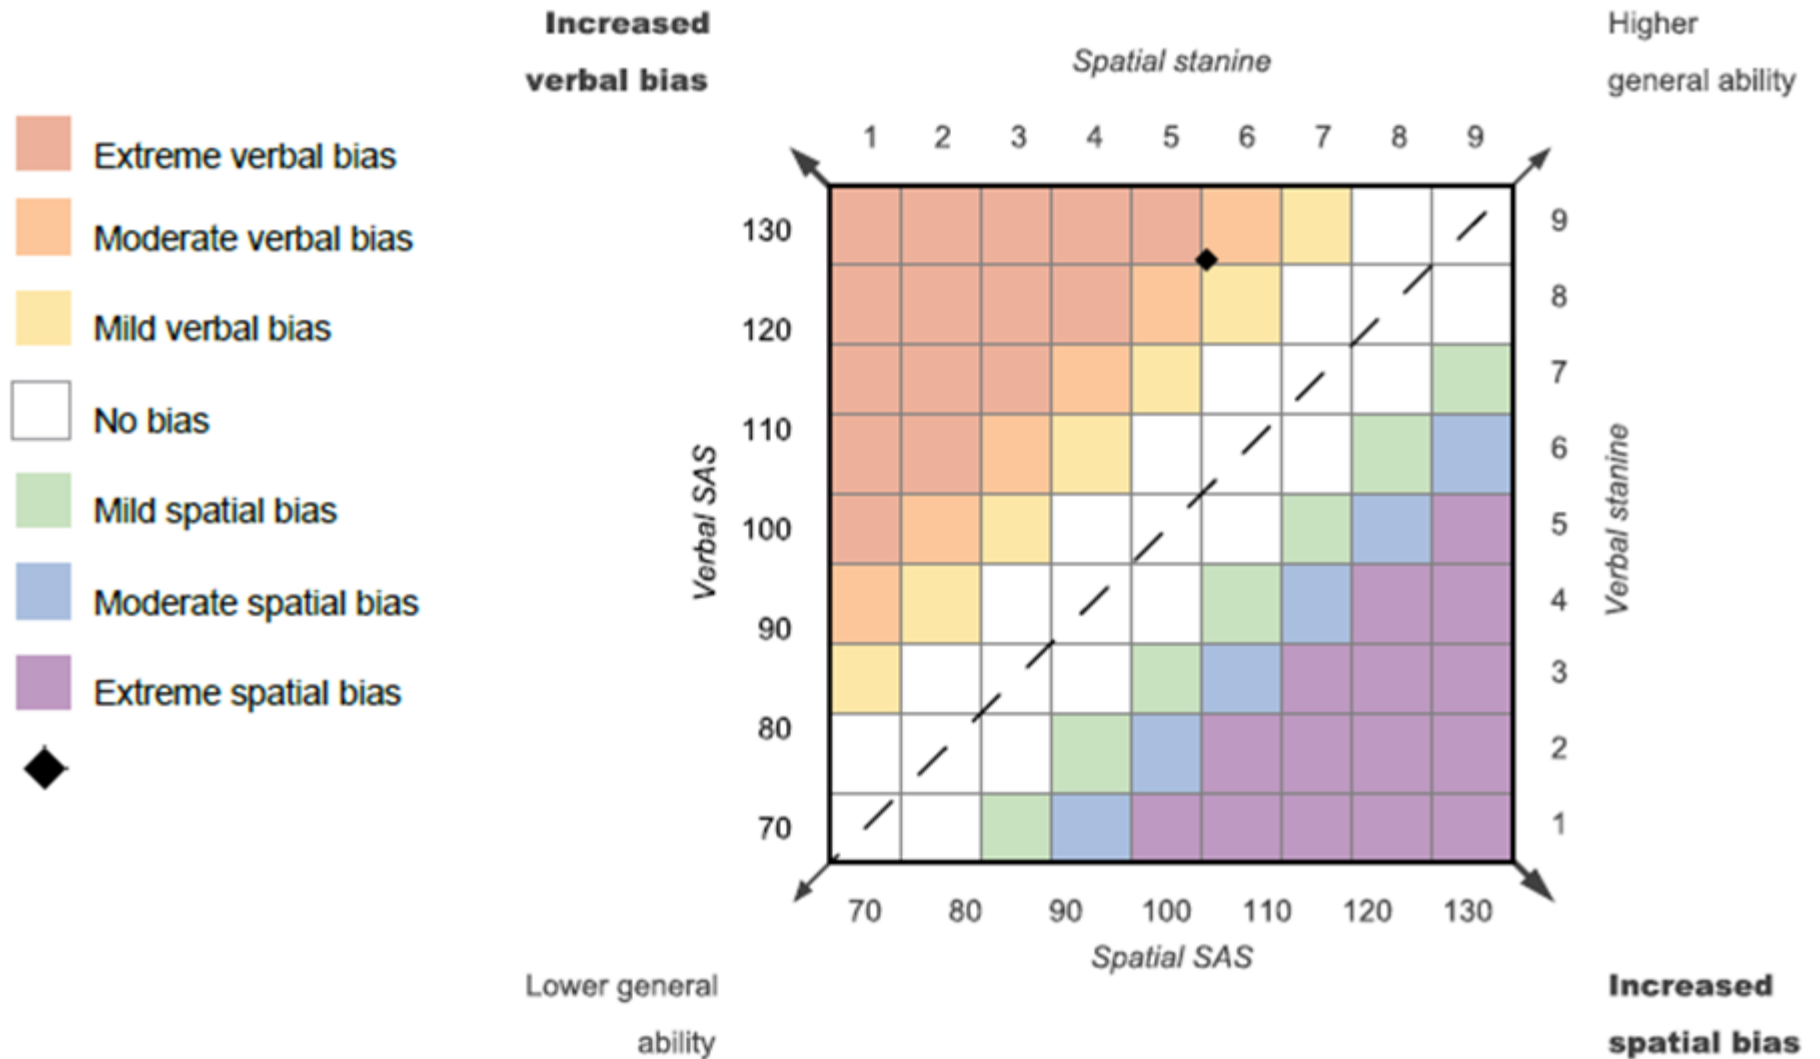

The cognitive ability test is another name for aptitude tests or intelligence tests. It is a form of psychometric assessment, which in this case included numerical reasoning, verbal reasoning, abstract reasoning and mechanical reasoning tests.

It is used by primary schools to give an indication of suitability for grammar school education and grammar school streams within comprehensives.
